Highway to Health

Keep Kids Healthy in School

When school is in session your children come across all sorts of germs and illnesses ranging from pink eye to flu or chicken pox.

Fall is the time that bugs start making the rounds in school.

A healthy diet and good sleep habits go a long way in keeping kids healthy. We also recommend kids:

- Don't share water bottles or food
 - Stay hydrated
- Cover their mouth during coughs and sneezes
- Use hand sanitizer and wash hands often

If your child gets sick with sniffles and sneezes this fall, connect with an AveraNow provider anytime, day or night.

Mike's Words of Wisdom...

If we Want It, How do we Get It?

First, we have to identify what It is. Life is full of It's....I want to make It, I want to have It, I want to get rid of It, I can't figure out what It is. It, is everywhere, the following 4 steps were shared with me on how to get It.....

First, we need to Get Up! If we have been knocked down due to finance, relationship, or work the first step is to get up, brush ourselves off and fight for what we believe in. At home or at Stan's we have things that knock us down, but how we react is what defines us.

Next, we need to Get Over It! It's not all about us, we are important, but we are just one link in the chain of life. We are here for the success of our families, our Stan's family, and our communities. We need to learn from the past but put it behind us, so we can move forward.

Then Get on the Right Path! It's easy to go down the wrong path of Easy. It is tough to choose the harder right path. We need to do the right things for the right reasons, even if it looks to be hard. My friend has a saying "The harder I work, the Luckier I get."

Last but not least we need to Get Going! We need to put our plan in motion, so we can reach our goals. Whether they are personal or Stan's team goals, we need to put our plan into action to achieve them. If we give 100% to our relationships at home or at work, we will succeed.

The one thing we cannot do is quit. Whatever we want in life is out there if we want to take the time and effort to get it. Abraham Lincoln was born into poverty, failed in business twice, suffered a nervous breakdown, and lost 8 elections. He could have given up, but he didn't quit and became one of the greatest presidents in the history of our country.

We are not all going to become President, but we can make a difference in this world by participating and putting efforts into our families, Stan's, and our communities by following these 4 steps when we get knocked down. No complaining, no whining, and no regrets. We need to get up, get over it, get on the right path, and get going....Got It!?

God Bless!
Mike

Logistics Lingo!

“It is literally true that you can succeed best by helping others to succeed.” - Napoleon Hill. Our largest customer, Jack Links, is in a time of need. We have had the opportunity to show the JL team that they have a business partner with Stan’s. This challenge has been hard on the entirety of Stan’s team, especially our drivers. I want to express how proud I am of our fleet for the attitudes and performance in helping Jack Links get back on track. Thank you ladies and gentlemen. Be safe. - Joey
