

CRYSTALYX® PROMOTION

FOR A LIMITED TIME
SAVE

-\$60/ton on **Crystalalyx**® BioBarrels®

- CRYSTALYX® can increase the digestibility of a low quality forage. Some would call this stretching your forage.
- CRYSTALYX® will lure your cattle to the underutilized (forage) areas of a pasture, where they may not normally travel due to a potential lack of water, less desirable forages or rougher more vertical terrain.
